Re: Lab results for "Biscuit", shelter ID MS-0912

Blood count and kidney values are within normal range. The thyroid level is slightly low (T4 1.1 ug/dL, reference 1.2 to 4.0). No treatment is needed now. Please recheck in 8 weeks, around January 12, 2027.

The dental cleaning is booked for Tuesday, December 8, at 8:30 am. No food after 10 pm the night before. Water is fine.

Call us at 555-0128 with any questions.

Dr. Helen Osei
